THE LINKS AT
CROWBUSH COVE
PRINCE EDWARD ISLAND

Welcome to *The Links at Crowbush Cove* *Microsoft Links 2001 Edition*

Created by **Tim Templeman**

Welcome to The Links at Crowbush Cove, Microsoft Links 2001 edition. This beautiful course is located in Lakeside Prince Edward Island Canada .

I was born on Prince Edward Island and took careful consideration to ensure that every important detail was built into the virtual course. Aids such as photographs, write-ups, videos and stories from golfers alike who have played there were used in design of the virtual course.

Crowbush is a magnificent golf course, cut right into the sand dunes that face the wind swept Gulf of St. Lawrence on the north shore of Prince Edward Island. With this in mind, you will notice that the wind will play an important factor in shot selection.

One of the unique characteristics of this course is that playing 18 holes will take you through 3 vastly different geographical landscapes. The front of the course through the woods, the middle of the course through marshland and the back of the course along the ocean shore of the Gulf of St. Lawrence. All of this was carefully integrated into the design of the Links 2001 playable course. Special thanks to Mr. Todd Manuel who tested the course and took the time to drive out to Lakeside to take photos.

The Links at Crowbush Cove was home to the 1998 Export A skins game played by Mike Weir, Fred Couples, Mark O'Meara and John Daly, was one of the best attended Skins Games ever. Now you and your friends can have your own Skins Game at this magnificent course.

Thomas McBroom, renowned golf course architect, has designed and built a world class facility in **The Links at Crowbush Cove**, establishing Prince Edward Island as the golf destination in Eastern Canada. McBroom creatively combined the natural features of the land with the historical Scottish traditions of golf. Indeed, Golf Digest rates Crowbush as the only Canadian course to achieve a five star rating.

Crowbush, unlike any other championship golf course in Canada, has a unique blend of sand dune systems, spectacular ocean views, undulating fairways, pot bunkers, a mixture of wild and natural grasses, strategic shot value throughout. Crowbush, a well-balanced course, requires every club in your bag.

Players are rewarded for good shots and challenged by poor ones. Crowbush, with four distinct Tees effectively offers four golf courses in one. The course is equipped with state of the art irrigation and drainage systems and other exceptional features including bentgrass tees, fairways and greens. This facility achieves modernity without compromising the historic tradition of golf.

We are very proud of the environmentally friendly techniques used to maintain this golf course. We work hard to preserve our wetlands and fragile dune habitat and to protect indigenous wildlife species. Thank you for respecting the natural beauty and ecosystems of the course.

We are delited you have chosen to play **The Links at Crowbush Cove**.
